

Pilbara Commercial Laundry Services

Unit 5 9 Byass St, South Hedland,
WA, 6722, Australia

Testimonial with Jamie Cavey

June 2011

Hi, my name is Jamie Cavey and I operate the only commercial laundry in the Pilbara - Pilbara Commercial Laundry Services. We are mid-size operation that specializes in the laundering of hotel linen, mine site linen and work clothes.

Living in a hard water area like the Pilbara means we have ongoing problems with calcium build up in our piping and air-conditioning systems. The calcium sticks to the heating elements and the whole internal section of the hot water system becomes completely clogged with calcium.

Twelve months ago we installed a German made CWT Water Treatment System from the team at Southern's Water Technology in Bunbury and immediately we noticed a significant reduction in the build up of calcium.

I believe we have quadrupled the life span of our evaporated air conditioner and we haven't had to replace our hot water system for more three years.

Without the CWT Water Treatment System we would be replacing our hot water system every two years at a cost of more than \$10,000.

There is no doubt the CWT Water Treatment System will prolong the life span of your piping and hot water systems and evaporative air-conditioning units.

The CWT Water Treatment emits high frequency electrical impulses into the water which changes the crystal formation of the calcium.

After the treatment, the adhesiveness of the crystals is reduced so that scale is unable to form in the pipes.

You can actually see the calcium slowly breaking down through the drainage system.

Sincerely,

Jamie Cavey
